CUBAN RECIPROCITY

Fifteen Thousand Dollars Spent in Trying to Effect It.

FOR GOOD OF CUBA

Governor General Wood Says He Made the Disbursements to Show That Such Trade Relations Should Exist With Us.

Washington, July 2.—Acting Secretary of War Sanger Tuesday sent a communication to the house in answer to a resolution directing the war department to furnish information as to what amounts have been paid out of Cuban treasury or the funds of the Cuban people to S. B. Thurber or other person, corporation, or association, for advancing reciprocity with the United States. The answer of the war department consists of certified copies of vouchers covering the payments referred to in the resolution amounting to \$15,626.

These vouchers are accompanied by a letter from General Wood to the secretary of war.

"The disbursements made," says General Wood, "were made by me as military governor of the island of Cuba and were made for the purpose of presenting to the people of the United States without reference to party or section the desires of the people of Cuba as to the trade relations which should exist between that country and our own. The action was approved by the industrial and commercial classes of Cuba. It received the unqualified endorsement of the secretary of the insular government and was an expenditure of Cuban funds for the purpose of promoting Cuban interests."

The Senate.

Washington, July 2.—After a session marked by some of the stormiest debates ever heard in the American congress, the senate adjourned sine die at 5:30 Tuesday afternoon.

During the last hours of the session there was a tart debate on the Philippine question, participated in by Messrs. Carmack of Tennessee, Spooner of Wisconsin, Callahan of Texas, McComas of Maryland and Lodge of Massachusetts.

The conference report on the Philippine government bill was adopted with very little opposition; and then when the decks of the senate were cleared for adjournment Mr. Carmack called up his resolution providing for a continuance of the investigation of the Philippine committee and for a visit to the Philippines by the committee during the present summer. This started the trouble, and for more than an hour a battle of words waged. Mr. Spooner delivered a scathing denunciation of the minority report of the Philippine committee for what he declared was an attack upon the American army. Mr. Carmack denied that any attack had been made upon the army and declared that any fool could charge such a calumny and any parrot could be taught to repeat it.

The resolution was referred to a committee, thus effectually killing it. Just before adjournment the usual resolutions were adopted thanking President Pro Tempore Frye for "the dignified, impartial and courteous manner in which he had presided over the deliberations of the senate."

After the adoption of the resolution Mr. Frye responded briefly and then declared the senate had adjourned without delay.

The Bailey-Beveridge episode did not figure in the last day's proceedings.

The House.

Washington, July 2.—Amid a scene of confusion and excitement that has not been paralleled since the exciting and stirring civil war, Speaker Henry Clay Tuesday afternoon, de-

clined being greeted with "For He's a Jolly Good Fellow," and a perfect rush of members to grasp his hand. Standing in the area in front of the clerk's desk, he too, joined in the songs and there was a wild scene, when Gen. Hooker of Mississippi, the one armed Confederate veteran, took his place by the side of the speaker and together they sang "Dixie."

Mr. Candler, a Mississippi Democrat, jumped upon a desk and gave a yell of jubilation that fairly shook the rafters. For almost half an hour the jubilation continued. All this time the spectators remained standing in the galleries watching the animated scene below and joining in the singing.

The adjournment came at the end of a seven and a half hour session during which much minor business was transacted. In all seventy bills and resolutions were passed.

The general good feeling in the house had been heightened by the victory won over the senate on the item in the naval appropriation bill for the building of a battleship in a government yard.

The closing hour was occupied with a spirited debate between Mr. Cousins of Iowa and Mr. Richardson, the Democratic leader, over the report on the investigation into the charges made by Captain Christmas, concerning the sale of the Danish West Indies. Mr. Cousins ridiculed Mr. Richardson for bringing the matter to the attention of congress. The latter defended his course.

Danish West Indies Charges.

Washington, July 2.—Chairman Daltzell of the special committee of the house which investigated the charge in connection with the purchase of the Danish West Indian islands, Tuesday submitted the report of that committee. After detailing the charges of bribery and showing that Capt. Christmas had repudiated the alleged report on which the charges were based, the committee sums up the results of their investigations as follows:

"That there is not the slightest semblance of evidence that any member of congress, either directly or indirectly, was offered or paid any bribe, or was paid any valuable consideration of any kind or character, to vote or assist in procuring the proposed adoption or ratification of a treaty or sale of the Danish West Indian islands to the United States. There is not the remotest ground from which to draw an inference or on which to base a conclusion that there was any corruption or wrong-doing on the part of the public officials of the United States in connection with the negotiations for the purchase and sale of the West Indian islands."

"It is plain beyond peradventure that the bribery alleged in the report could have existed nowhere save in the imagination of Christmas, since the whole burden of his story is that he had no money. It is in evidence that he had to borrow in order to pay his passage home from this country."

Expenditures of Congress.

Washington, July 2.—Senator Allison, chairman of the committee on appropriations, presented a statement showing the total appropriations for the session by bills, as follows:

Agriculture, \$5,208,960; army, \$91,530,136; diplomatic and consular, \$1,957,925; District of Columbia, \$8,647,526; fortifications, \$7,923,955; Indian, \$9,143,902; legislative, etc., \$25,398,381; military academy, \$2,627,324; navy, \$78,678,963; pension, \$139,842,230; post-offices, \$138,416,598; river and harbor, \$26,726,442 (exclusive of contracts authorized); sundry civil, \$60,125,359; deficiencies, \$28,039,911; miscellaneous, \$2,600,000; isthmian canal, \$50,130,000; permanent annual appropriations, \$123,921,220. Grand total, \$800,193,837. The total last year was \$730,338,575.

Two Nominations Not Confirmed.

Washington, July 2.—The senate refused to confirm the nominations of Dallas Herbert and William H. Harvey to be postmasters at Commerce and Belton, Texas, respectively. Both rejections were based on adverse recommendations by the committee on post-offices, due to protests.

An unusually large number of nominations failed to be acted upon, including many nominations to minor offices both in the army and navy.

Seven Times.

—An attempt on Buchanan was made. The latter had been shot by Mr. Buchanan, and as a result of a set-back, Mr. Buchanan with a bullet in his back appeared and then disappeared. Mr. Buchanan, with a broken heart, fell upon him and could hardly get assistance of crutches. His life to the fact that he had a dull knife, with which he was cutting off. His wounds are but fortunately are dangerous. The report has been apprehended after him.

Big Vessels Cut in Twain to Get Thro
Lower Ontario.

Buffalo, July 2.—A westbound ves-
which have just come from the
Lawrence and put into Charlotte
coasting, says that the aft-section
of the big ocean liner Minnewaska has
been warped off the rocks in the St.
Lawrence river, where it struck two
weeks ago. The two halves of a sis-
ter ship, the Minnetonka, were con-
ducted through the perilous waters of
lower Lake Ontario and the St. Law-
rence in safety, and reached Quebec
without mishap.

This news marks the practical
completion of one of the most remarkable
feats of shipbuilding ever known on
the lakes. These two huge ocean-go-
ing freighters were built at Cleveland.
Each of them is 500 feet in length.
Close calculation showed that the
length of the completed vessel would
not admit of their passing the locks
in the Welland and St. Lawrence can-
als by several feet. Consequently it
was decided to tow them down the
lakes in sections, two to each ship.

Sheriff Fined One Hundred Dollars.

Houston, July 2.—Judge Gillespie
fined Sheriff Anderson \$100 for mak-
ing an alleged statement, which was

stance of which was that justice was
being defeated by holding juries in
confinement so long, referring in the
paper to the Boyd and Ransom cases,
in which both defendants, though
charged with murder, were discharged.
The sheriff did not deny that he had
made the statement.

COTTONWOOD.

Cottonwood, July 1—The rain that has been prophesied for by the "corn sufferers" has arrived. They seem to have forgotten all about their ailments and have ceased to limp about from shade to shade, and have increased their speed to an extent that shows that they are not discouraged with the prospects for bread, and are laboring diligently to make ends meet.

The picnic day is approaching rapidly. Let us all attend and enjoy ourselves once more in the shades that have been made to rejoice in nature's garden by the smiling faces of old friends who meet for the purpose of enjoyment. Now don't stay at home and after the day passes ask whether it was worth it or not. Come and

NO BRIBERY SHOW

Speech of Cousins in the
West Indies Scandal.

SCATHING REMARKS

He Deals Severely With Christmas,
Goes for Representatives from
Tennessee and Alabama and
Praises the Danes Here.

Washington, July 2.—In the course of his remarks Tuesday on the report of the committee which investigated the charges of bribery in connection with the purchase of the Danish West Indies, Representative Cousins of Iowa had the following to say in exoneration of the American and Danish people, the American congress and the press:

"This is the indictment, which according to this report, Mr. Christmas drew against his own country and against himself when he returned. It seems he had fallen out with everybody, and was discredited by everybody except possibly by the gentleman of Tennessee, assisted by the honorable gentleman from Alabama, who at last gave him sufficient credit to spread upon our record the ludicrous and monstrous charge, which not only involves by name two members of this body, but directly impugns the honor of the whole American congress and press.

"Nothing in this report, nor in facts, developed by its investigation, necessitates the defense either of congress or the press, neither the assertion that the prime minister of Denmark expressed to Christmas his abhorrence for the political situation in America which makes it necessary to offer money in order to bring political action. "American people suspect neither themselves nor Denmark. They know too well the sterling qualities of the Danes, who live among us, to believe any high official of that country ever uttered such unbelievable and preposterous scandal."

Out of that amount \$39,500 was due to the secretary of state.

Buenosmino Got the Pen.

Washington, July 2.—Senor Buenosmino, who has been sojourning in this country, called upon President Roosevelt and received the pen with which he signed the Philippines government bill as he desired to preserve it and eventually place it in some public library in the Philippines. The pen already had been given to Senator Lodge chairman of the Philippines committee, but as he happened to be present at the time, he presented it to Senor Buenosmino.

When latter left the White House he remarked the Philippine bill initiated self government in the islands. He also paid a high tribute to President Roosevelt.

STILL UNSOLVED.

Jury Cannot Decide What Caused the Death of Miss Thompson.

Chicago, July 2.—The exact cause of the death of Miss Hannah May Thompson, who died at a boarding house on May 29 last while wearing a beauty mask, probably never will be known. After hearing evidence on the case the grand jury refused to indict "expert" E. Wesley Johnson, who was administering a facial treatment to Miss Thompson and who had been held on the charge of murder.

Johnson, who was arrested with his wife is still locked up in jail, but when the jury's report is made in court there will be nothing to bar his release.

Manchuria to Be Evacuated.

London, July 2.—When questioned in the house of commons today upon the subject of the collection of liken and other duties by the Russian administration at New Chwang, Manchuria, parliamentary secretary of the foreign office, Lord Crinborne, said Great Britain had not protested against the action taken because her majesty's government had been notified negotiations were proceeding for the evacuation of Manchuria by Russia and it was expected Manchuria would shortly be restored to Chinese control.

Smith of the supreme court of the Philippines and Rev. O'Gorman of Sioux Falls, Ia. If the terms are approved the note will be delivered at once.

Big Vessels Cut in Train to Get Thro
Lower Ontario.

Buffalo, July 2.—A westbound ves-
sels which have just come from the
Lawrence and put into Charlotte
coaling, says that the aft-section of
the big ocean liner Minnewaska has
been warped off the rocks in the St.
Lawrence river, where it struck two
weeks ago. The two halves of a sis-
ter ship, the Minnetonka, were con-
ducted through the perilous waters of
lower Lake Ontario and the St. Law-
rence in safety, and reached Quebec
without mishap.

This news marks the practical com-
pletion of one of the most remarkable
feats of shipbuilding ever known on
the lakes. These two huge ocean-go-
ing freighters were built at Cleveland.
Each of them is 500 feet in length.
Close calculation showed that the
length of the completed vessel would
not admit of their passing the locks
in the Welland and St. Lawrence can-
als by several feet. Consequently it
was decided to tow them down the
lakes in sections, two to each ship.

Sheriff Fined One Hundred Dollars.

Houston, July 2.—Judge Gillespie

paper to the Boyd and Ransom cases,
in which both defendants, though
charged with murder, were discharged.
The sheriff did not deny that he had
made the statement.

the gang. Bridges will recover.

COTTONWOOD.

Cottonwood, July 1—The rain that has been prophesied for by the "corn sufferers" has arrived. They seem to have forgotten all about their ailments and have ceased to limp about from shade to shade, and have increased their speed to an extent that shows that they are not discouraged with the prospects for bread, and are laboring diligently to make ends meet. The picnic day is approaching rapidly. Let us all attend and enjoy ourselves once more in the shades that have been made to rejoice in nature's garden by the smiling faces of old friends who meet for the purpose of enjoyment. Now don't stay at home and after a day passes ask whether it was worth or not. Come and

NO BRIBERY SHOW

Speech of Cousins in the
West Indies Scandal.

SCATHING REMARKS

He Deals Severely With Christmas,
Goes for Representatives from
Tennessee and Alabama and
Praises the Danes Here.

Washington, July 2.—In the course of his remarks Tuesday on the report of the committee which investigated the charges of bribery in connection with the purchase of the Danish West Indies, Representative Cousins of Iowa had the following to say in exoneration of the American and Danish people, the American congress and the press:

"This is the indictment, which according to this report, Mr. Christmas drew against his own country and against himself when he returned. It seems he had fallen out with everybody, and was discredited by everybody except possibly by the gentleman of Tennessee, assisted by the honorable gentleman from Alabama, who at last gave him sufficient credit to spread upon our record the ludicrous and monstrous charge, which not only involves by name two members of this body, but directly impugns the honor of the whole American congress and press. "Nothing in this report, nor in facts, developed by its investigation, necessitates the defense either of congress or the press, neither the assertion that the prime minister of Denmark expressed to Christmas his abhorrence for the political situation in America which makes it necessary to offer money in order to bring political action. "American people suspect neither themselves nor Denmark. They know too well the sterling qualities of the Danes, who live among us, to believe any high official of that country ever uttered such unbelievable and preposterous scandal."

When latter left the White House he remarked the Philippine bill initiated self government in the islands. He also paid a high tribute to President Roosevelt.

STILL UNSOLVED.

Jury Cannot Decide What Caused the Death of Miss Thompson.

Chicago, July 2.—The exact cause of the death of Miss Hannah May Thompson, who died at a boarding house on May 29 last while wearing a beauty mask, probably never will be known. After hearing evidence on the case the grand jury refused to indict "expert" E. Wesley Johnson, who was administering a facial treatment to Miss Thompson and who had been held on the charge of murder.

Johnson, who was arrested with his wife is still locked up in jail, but when the jury's report is made in court there will be nothing to bar his release.

Manchuria to Be Evacuated.

London, July 2.—When questioned in the house of commons today upon the subject of the collection of liken and other duties by the Russian administration at New Chwang, Manchuria, parliamentary secretary of the foreign office, Lord Crinborne, said Great Britain had not protested against the action taken because her majesty's government had been notified negotiations were proceeding for the evacuation of Manchuria by Russia and it was expected Manchuria would shortly be restored to Chinese control.

Taft's Note to the Pope.

Rome, July 2.—Civil governor of Philippine islands, Judge William H.
